Final indicator list for monitoring of the Action Coalition Global Targets

Action Coalition: Gender-Based Violence			
Target	Final Indicator Language	Is this an SDG Indicator?	Tier
Target 1: 550 million more women and girls will live in countries with laws and policies prohibiting all forms of gender-based violence against women and girls by 2026.	Total number of women and girls living in countries and areas where legal frameworks are in place to promote, enforce and monitor equality and non-discrimination on the basis of sex in the area of violence against women (compared to 2021 base year)	5.1.1 (under area 2 VAW)	I
Target 2: 4000 private sector organizations adopt and implement GBV policies by 2026.	Number of private sector organizations implementing GBV policies (2021 baseline, to be determined)		III
Target 3: 55 more countries will have no exceptions to legal age of marriage along with policy measures to end	Number of countries and areas with no exceptions to the legal age of marriage (compared to 2021 base year)	5.1.1 (under area 4 Marriage and family)	I
the practice by 2026 and three quarters of countries where FGM is known to be practiced will have legal prohibitions and policy measures against FGM in place by 2026.	Number of countries and areas that have specific legal prohibitions against FGM (compared to 2021 base year)		III
Target 4: 9 in every 10 countries will finance and implement coordinated, comprehensive and multi-sectoral	Share of countries with national multisectoral action plans for addressing VAW		I
programming on GBV against women and girls including harmful practices by 2026.	Share of countries with budgetary commitments to address VAW.		I
Target 5: Increase by 25 % the number of countries that ratify international and regional conventions on GBV against women and girls by 2026	Percent increase in the number of countries that ratify international and/or regional conventions on GBV (compared to 2021 base year)		II
Target 6: 159 countries globally will have at least one survey on the prevalence of violence against women from the last ten years by 2026	Number of countries with at least one survey on prevalence of violence against women since 2016		I
Target 7: Increase by 50% the number of countries that include one or more evidence-driven prevention strategies on gender-based violence against women and girls in national policies by 2026.	Percent increase in the number of countries that include one or more evidence-driven prevention strategies on gender-based violence against women and girls in national policies by 2026		III
Target 8: Increase by 25% the number of people who endorse gender equitable beliefs in every country by 2026.	The proportion of people who report no gender bias, by sex		III
Target 9: Increase investment in evidence-driven prevention strategies by USD 500,000,000 by 2026.	Amount of bilateral ODA dedicated to ending violence against women and girls		II
Target 10: 100 national governments revise and strengthen school and teacher training curricula to include effective approaches to prevent GBV and promote gender equality and respectful relationships by 2026.	Number of countries with sexuality education curriculum that include modules on healthy relationships, violence and staying safe, and understanding gender and values	5.6.2 (sub-component of)	II
Target 11: Prevent child, early and forced marriages and unions of 9 million girls and adolescents by 2026.	Proportion of women aged 20–24 years who were married or in a union before age 15 and before age 18	5.3.1	I
Target 12: Prevent 8 million cases of female genital mutilation by 2026.	Proportion of girls and women aged 15–49 years who have undergone female genital mutilation/cutting, by age	5.3.2	I
· · · · · · · · · · · · · · · · · · ·	Percent increase in the number of countries with multi-sectoral action plans on GBV which include provision of police, justice, health and social sector services by 2026.		I
Target 14: 100 countries implement training and capacity building programmes/initiatives for law enforcement personnel on gender-responsive policing, including addressing gender-based violence against women and girls in all their diversity by 2026.	Number of countries that are implementing or adopting gender-responsive policing services (compared to 2021 baseline)		III
Target 15: Increase by 50% the number of countries whose health sector protocols, guidelines or SOPs align with WHO/international standards by 2026.	Percent increase in the number of countries whose health sector protocols, guidelines or SOPs align with WHO/international standards by 2026		III
Target 16: Increase by 50% the number of countries that include training programmes or curriculum for health care providers in their health policies/protocols or in the national multisectoral plan by 2026.	Percent increase in the number of countries that include training programmes or curriculum for health care providers on VAW in their health policies/protocols or in the national multisectoral plans (compared to 2021 base year)		I

Target 17: Progressively improve and increase international funding by doubling to women's rights organizations, activists and movements including those working to address gender-based violence experienced by historically excluded groups that face multiple and intersecting form of discrimination by 2026.	Direct bilateral ODA [share and amount] for ending VAWG that goes from DAC members to local CSOs based in developing countries		II
Target 18: Increase national funding to girl led and women's rights organizations working to address GBV by USD 500,000,000 by 2026.	Number of women's and feminist organizations and movements funded, disaggregated by type of funding (national/international), sector (funding for GBV) and by profile of leader (girl led etc)		III
Target 19: Increase leadership and meaningful participation of girl led and women's rights organizations and movements particularly those led by historically excluded women and girls facing multiple and intersecting forms of violence and discrimination, in national and international decision-making, by 2026.	Proportion of countries with strong and autonomous feminist movements		III
Target 20: Women's rights organizations are represented in all GBV sub-cluster coordination mechanisms and lead at least 25% of them by 2026.	Number of women-focused and women-led organizations as GBV co- coordinators in activated clusters/coordination teams		II
Target 21: 30% of humanitarian funding to address GBV goes directly to Women's rights organizations by 2026.	Share [and amount] of bilateral ODA to ending VAWG in fragile contexts		II
Target 22: 50% of countries track GBV specific national and international funding to autonomous girl led and women's rights organizations through a dedicated budget line for that purpose.	TBD, indicator to be finalized after baseline and data source for Target 18 are determined and finalized.		III

Actio	on Coalition: Feminist Movements & Leadership		
arget	Final Indicator Language	Is this an SDG Indicator?	Tier
Target 1: By 2026, double the global annual growth rate of funding from all sectors committed to women led, girl-led and feminist-led movements, organizations, and funds.	Amount of bilateral ODA dedicated to women's rights organistions and feminist movements		II
Target 2: Promote, expand, strengthen, and protect civic space across all domains, including online, and support the efforts of feminist activists in all their diversity, including women's human rights defenders, women peacebuilders, trans, intersex and non-binary people, girls and other members of historically marginalized groups, to defend civic space and eliminate barriers to feminist action, organizing and mobilization in all its diversity.	Number of verified cases of killing, kidnapping, enforced disappearance, arbitrary detention and torture of journalists, associated media personnel, trade unionists and human rights advocates in the previous 12 months, by age	16.10.1	11
	Share of women in national parliament and local government		
Target 3: By 2026, advance substantive representation and increase the meaningful participation, leadership and decision-making power of girls and youth leaders, and of women, and feminist leaders in all their diversity, including those who are trans, intersex and non-binary, through efforts to:		5.5.1a and b	
(a) Advance gender parity and the inclusion of those historically marginalized in all aspects, sectors and levels of public and economic decision-making, including the private sector, civil society, international organizations, political and government institutions and executive and legislative positions (b) Promote and expand feminist, gender transformative, intersectional approaches to decision-making and leadership, which acknowledge, analyse and challenge existing power relations and advance inclusive, gender transformative and rights-affirming laws and policies.	Proportions of positions in national and local institutions, including (a) the legislatures; (b) the public service; and (c) the judiciary, compared to national distributions, by sex, age, persons with disabilities and population groups	3.3.1a anu v	
Target 4: By 2026, allocate, monitor and evaluate specific, flexible financial, technical, and other resources for adolescent girls and young feminist leaders and their movements and organizations to strengthen them, and create safe and inclusive spaces to lead, share ownership and substantively participate in and co-create decision-making processes.	Number of women's and feminist organizations and movements funded, disaggregated by type of funding (national/international), sector (funding for GBV/SRH services) and by profile of leader (girl led etc)	16.7.1	III
