DATA REVEAL

THE DISTANCE TO EQUAL IS LONG.

AND THE TIME IS SHORT.

HOW TO READ IT?

Global progress on SDG 5 is measured using 9 targets, made up of 18 indicators and sub-indicators, and is visualized according to an assessment of the current level of progress toward achieving the target.

□ One SDG 5 indicator value per country

■ Target met or almost met

■ Close to target

■ Moderate distance to target

■ Far from target

■ Very far from target

■ Insufficient data

Assessment of progress is indicated by the colour of the oval outline. The blurred effect is intended to communicate the interconnectedness of progress. Unless more is done by all, the entire global community will fail to achieve SDG 5.

HOW TO READ IT?

Global progress on SDG 5 is measured using 9 targets, made up of 18 indicators and sub-indicators, and is visualized according to an assessment of the current level of progress toward achieving the target.

Target 5.a: Some data are available but are too limited to assess aggregate progress.

■ ■ ■ = 3% of data for the given target are at the 'met or almost met' threshold.

Total number of ovals per target = 100

■ Target met or almost met

■ Close to target

■ Moderate distance to target

■ Far from target

■ Very far from target

■ Insufficient data

Assessment of progress is indicated by the colour of the oval outline. The blurred effect is intended to communicate the interconnectedness of progress. Unless more is done by all, the entire global community will fail to achieve SDG 5.

WHERE DATA ARE MISSING,

WOMEN & GIRLS ARE INVISIBLE.

ONLY 48% OF DATA NEEDED TO MONITOR
SDG 5 ARE CURRENTLY AVAILABLE.

■ Insufficient data

Assessment of progress is indicated by the colour of the oval outline. The blurred effect is intended to communicate the interconnectedness of progress. Unless more is done by all, the entire global community will fail to achieve SDG 5.

The background of the image is a light gray field filled with a repeating pattern of horizontal bars. Each bar contains a series of small, colored dots in blue, teal, yellow, orange, and red, arranged in various sequences and lengths, creating a textured, data-like appearance.

UNLESS PROGRESS IS
ACCELERATED
BY ALL,
THE ENTIRE GLOBAL COMMUNITY
WILL FAIL TO
ACHIEVE SDG 5.

SDG 5 IN REVIEW 2022

REGIONAL & COUNTRY OUTLOOK

AUSTRALIA AND NEW ZEALAND

CENTRAL ASIA AND SOUTHERN ASIA

EASTERN ASIA AND SOUTH-EASTERN ASIA

EUROPE AND NORTHERN AMERICA

LATIN AMERICA AND THE CARIBBEAN

NORTHERN AFRICA AND WESTERN ASIA

SUB-SAHARAN AFRICA

HOW TO READ IT?

Global progress on SDG 5 is measured using 9 targets, made up of 18 indicators and sub-indicators, and is visualized according to an assessment of the current level of progress toward achieving the target.

Some SDG regions/countries have fewer indicators as not all indicators are applicable everywhere.

*Excluding Australia & New Zealand

Target met or almost met

Close to target

Moderate distance to target

Far from target

Very far from target

Insufficient data

One oval = One SDG 5 indicator

One group = One country or region

Assessment of progress is indicated by the colour of the oval outline. The blurred effect is intended to communicate the interconnectedness of progress. Unless more is done by all, the entire global community will fail to achieve SDG 5.

BOLD ACTION TO ACCELERATE PROGRESS
AND CLOSE DATA GAPS IS NEEDED.

THE TIME TO ACT
IS NOW.

This project is based on findings from UN Women and UN DESA's Progress
on the Sustainable Development Goals: The Gender Snapshot 2021.
