

Innovative Uses of Administrative Data

55th Statistical Commission side event

Location: UN Women, 220 E 42nd Street, New York
29 February 2024, 8:15 a.m. – 9:30 a.m (EST)

Please **register here** to join the event: [RSVP link](#)

Organizers: United Nations Statistics Division (UNSD) and the Global Partnership for Sustainable Development Data (GPSDD)

Overview:

Access to administrative data sources is only the first step in fully unlocking the power of data to power social good. This data, collected by governments and service providers in their day-to-day business, is pivotal for the production of statistics. In this session, members of the Collaborative on Administrative Data will **share their experience in applying innovative approaches to the use of administrative data**. A light breakfast will be served ahead of the event.

The Collaborative on Administrative Data led by the UNSD and GPSDD was established in 2020 to strengthen the capacity of national statistical systems to leverage the use of administrative data for statistical purposes, to fill gaps in the data available to policy and decision makers to monitor progress and implement the 2030 Agenda. The collaborative brings together stakeholders from countries and regional and international agencies and is a space for learning and sharing to strengthen the capacity of countries to produce and use administrative data sources for statistical purposes.

Agenda:

8:15 - 8: 25 a.m.	Opening remarks
8:25 - 9:00 a.m.	Panel discussion (1-2 questions to each participant)
